THOSE WHO VOTED, VOTED ALL RIGHT."

A gentleman writing from Martin county about the late election says:

"The Radical majority in this County will be between 250 and 300. Returns from one half the county in this estimate. The white vote is at least 400 short. We found it impossible to get the white vote out. There are no changes from our side to the Radicals. Those who voted voted all right."

Such is the information we have received from several Counties. We have heard of no recent converts to Radicalism in North Carolina. The same difficulty existed elsewhere that our friend complains of in Martin—it was impossible to get the voters out to the election.

Our people have exhibited an indifference that is truly deplorable. The truth seems to be that many of them are tired of politics, and prefer to take no part in correcting the evils of mis-government. We hope for a better feeling in the future.

THE CONSPIRACY TO OVERTHROW THE BALLOT.

We direct especial attention an article in another column, taken from the New York Herald, on "The Frauds in Philadelphia." We ask every honest man, no matter to which party he may belong, to read there the incontrovertible evidences of the conspiracy and fraud to overthrow the ballot and to defeat the free and fair expression of the popular will.

We also call attention to the article below from the Philadelphia Press, referring to the facts brought out in the Herald article, and showing how Buckalew was defrauded out of his election.

The Press gives it as its opinion that Buckalew received a majority of the votes cast in Philadelphia, but by the system of erasures, alterations and insertions adopted by the Radical election officials, a large majority was manipulated for Hartranft, to overcome Buckalew's anticipated majority from the State at large.

Less than one-tenth of the Districts of the City of Philadelphia, over 3,000 already been discovered, and the investigation is still going on.

Such a stupendous system of fraud in elections the country has never witnessed!

(From the Philadelphia Press, Nov. 4.)

Masks Off.

When so large a majority was declared for the Republican State ticket, on the 8th of November, we stated that we did not regard the result as fraudulent. Our judgment rested on the belief that Gen. Grant's prestige and the demoralization of the Democracy in consequence of the surrender of Baltimore had done the work; but every hour's subsequent experience has proved a system of frauds unparalleled in the records of elections in this country. The last evidence is that revealed in the Court of Common Pleas on Saturday last, reported at length in our local department. It does not depend upon newspaper surmises, but is the result of an examination made on the authority of Judge Pearce, of the same court, by a member of the Municipal Reform Association (Mr. Albert Williams), whose affidavit was read by the eminent counsel of that association, Mr. E. Spencer Miller, before His Honor Judge Finletter. We need not only refer our readers to this painful and extraordinary disclosure, nor the less painful because evidently perpetrated by Republican election officers, and not the less extraordinary because, in our opinion, wholly unnecessary, except to save from defeat the objectionable men on our State ticket. Judge Finletter made a very significant remark on this starting disclosure and followed it by an order on Prothonotary Loughridge, which must lead to still further evidences of the deeply planned conspiracy of the 8th of October last. The light thrown on this conspiracy on Saturday shows a state of affairs so disgraceful as to call a blush of shame to the cheek of every honest citizen.

The affidavit read before Judge Finletter shows that various alterations, erasures and changes of figures are apparent in the returns; that some of the envelopes containing the hourly lists of the divisions are missing; that many of the returns cannot be found, and that numerous of them are not signed by the proper officers required by law to certify to their correctness. The exposures of frauds perpetrated are confined to only thirty five divisions of twelve wards. The plan was systematic, and it is safe to assert that there were numerous cases as yet undiscovered of alteration of the vote in the other 324 divisions. The divisions in which the frauds were perpetrated include about one-tenth of the vote of the city. If they were equal in extent in extent in only one-half of the others (and fraud in the great majority of them is not only possible, but probable,) the vote to Philadelphia was falsified at least fifteen thousand on the evening of the 8th of October by the election officers alone. This is exclusive of the repeating, personating and ballot box stuffing by the tools of the ring on the same day. We now verily believe that an examination of the entire returns and a contest in which the frauds committed, but not apparent upon them, could be exposed, would put the stump of guilt upon at least five hundred men in Philadelphia, and show that Charles R. Buckalew carried Philadelphia by a clear and ample majority.

It is to be hoped that such an exami-

nation will be had and that the man who sold the honor of the Republican party and betrayed the Commonwealth may meet the fate they deserve. We expect a change to be made in our laws soon, which, if it will not make the perpetration of frauds at elections impossible, will secure their certain punishment. With this change, an incorruptible judiciary and a proper public spirit, we are not apprehensive of the future. Fraud may triumph for a while, but it will not flaunt the evidences of its guilt in the faces of our people much longer. This community, patient and long suffering as it is, has the virtue and manhood not to connive at and endorse a wrong. When once thoroughly aroused its power of truth and honesty will be more than a match for all the corruptions and weapons the enemy can use.

PENNSYLVANIA ELECTION FRAUDS.

Startling Corruption in Philadelphia—Report of a Special Examiner.

PHILADELPHIA, Nov. 4, 1872.

A most determined investigation into the *modus operandi* adopted by the election return judges during the late State elections has developed some startling facts. It is a matter of common report both in Philadelphia and New York that the reputed majorities for the gubernatorial and other candidates were far in excess of the actual vote; yet the mere partisans among the Republicans have the assurance to claim their majorities to have been lawful votes. Witness the following affidavit of Albert L. Williams, a young expert, appointed by the Court to examine election returns in fifteen wards. It this will not convince your readers of the shameless manner in which these returns have been "repeated" nothing will:

Albert L. Williams, being duly sworn according to law, deposes and says—

That he is twenty three years of age, and resides at No. 333 McIlvaine street, Philadelphia. That upon the 28th inst., by authority of an order of the Court of Common Pleas, of Philadelphia, he made an examination of the returns of the judges of election, on the 8th inst., for each division of the wards in said city, and made copies thereof. That in said returns, now of record in said Court, there appear numerous erasures, alterations and changes of figures in the return of the votes of some of the candidates, and other irregularities of the following character, to wit:

THE Greensboro Patriot says that Mr. Julius Gray presented the Fire Company and Hook and Ladder Company last week with \$200 as a recognition of the services rendered when his residence was burned. We take a pleasure in recording such acts of liberality.

JOHN B. HUSSEY, Esq., the talented young Editor of the Hickory Tavern Eagle, in the last issue of that paper, withdraws as a candidate for Reading Clerk of the House of Representatives, on account of business of an imperative nature. Mr. Hussey, in his card of withdrawal, tenders his grateful acknowledgments to many kind friends who had so generously tendered him their support and influence.

THE Durham Tobacco Plant learns of a horrible affair which occurred last Monday about nine miles South of that place. Tuck Hudson (col) and his wife left home last Monday, the former going to Raleigh and the latter to a neighbor near by. Their two children, one about five years old, and the other were left in the house. When the mother returned in the evening she found, instead of the home and little ones she had left, a heap of ashes and the charred bodies of the two children.

No idea can be given as to how the fire originated, it having not been discovered until the woman returned in the evening.

SPEAKING of cheese-making in Western North Carolina and East Tennessee, the Cincinnati Commercial says:

Among other evidences of progress at the South may be noticed the increasing interest manifested in cheese-making, particularly in Eastern Tennessee and Western North Carolina. There are four cheese factories in Western North Carolina, which will this year turn out about 100,000 pounds of cheese, no great things for the Northern dairy districts, but of much importance in that country. This cheese sells for fifteen cents a pound net, and that made at Elk Mountain has been pronounced equal in quality to the best Herkimer county product. Dairying and wool growing are well adapted to many portions of the Southern States, and appear to be growing in favor.

The National Republican, published at Salem, N. C., a rabid Radical paper, has suspended. The *Republican* was edited with much spirit, and was a bitter and malicious sheet.

The unmarried editor of the Hickory Tavern *Eagle* threatens to publish *Matrimonial Probabilities* in his paper, in which are to be arranged tables under the classes "very soon"—"slow"—"getting warmer"—"getting colder"—"dead". We would like to know under which head the matrimonial prospects of the said editor will be classed?

THE Wilmington Star says that Dr. J. Francis King, President of the College of Physicians and Surgeons of Wilmington, furnishes to the Mayor and Board of Aldermen the following statement of patients treated at the Dispensary for the month of October: Males 48; females 103. Whites 99; colored 62. Total treated, 151. Value of medicines, \$91.30.

We learn from the *Tobacco Plant* that Messrs. Towns & Harris, of Granville County, sold 3 lots of Primings Tuesday, in the Durham Ware house, at the following prices:

400 lbs at \$7.50 per hundred.
196 " " \$10.50 "
30 " " \$15.00 "

These prices cannot be beaten in any market.

THE Hillsboro Recorder says that James Norwood, of Orange county, received at the Charlotte Fair, \$20 premium for the largest yield of oats on 2 acres; \$20 premium for the largest yield of Irish potatoes on 1 acre. Insufficient affidavits as to kind of manure used and quality of land and cost of cultivation alone withheld from the same gentleman premiums for the largest yield of wheat on 2 acres, and the largest yield of Lucerne hay.

THE Wilmington Journal says: Mr. A. J. Hill, agent of the Guardian Life Insurance Company, took out a policy a few days since on the life of Mr. Alfred Brown, of Brunswick, in regard to whose family there are some peculiar circumstances. Mr. Brown is about 60 years of age; his father has seventeen brothers, all of whom are living, and Mr. Brown has, himself, four brothers and four sisters, all living. His grandfather died at the age of 107, and his grandmother, now alive and in good health, is 120 years. These are certainly very remarkable instances of longevity, and well worth recording here.

THE Hillsboro' Recorder speaking of the case of Josiah Turner vs. W. W. Holden for false arrest and imprisonment, which was continued to the next term of Orange Superior Court, says: The peremptory way in which Judge Toure ruled Mr. Webb to the literal construction of his first motion was extraordinary, and was the ruling of the partisan, not of the equitable Judge. If Mr. Webb was unfortunate in his expression that he wished a continuance, instead of a postponement, it bound neither him nor the Judge to the retention of that position. If he declared his readiness, as he did, to go on with the trial without the presence of a witness at first thought indispensable, it clearly was his right to have the case pressed to hearing. He assumed all the consequences of defective testimony, the quibble on the words "continuance" and "postponement" was contemptible, and was so felt by every member of the bar. It was of course a triumph for the defendant, and he and his friends evidently enjoyed it, yet not without a palpable treachery by the countenance of the Judge of the full consciousness of the partizan stand he had taken.

THE election being over, the Wilmington papers have turned their attention to the Cape Fear Fair which begins in that city next week.

EXCURSION trains will run from Old Fort and Salisbury to the Fair at the 13th and 15th inst.

Mrs. A. L. STUFORD, of Catawba, received last week, from Georgia, two fine pigs—Esel and Berkshire, 16 and 10 weeks old—will be on exhibition at the Hickory Fair.

The Editor of the Hickory Tavern Eagle has been presented with a sweet potato weighing 7½ pounds. This is the largest we have heard of this season.

The Hickory Tavern Eagle has added a "Farmer's Department" to its columns for the benefit of the agricultural interests of Catawba and adjoining counties.

The number of patients in the City Hospital at Wilmington for the month of October was 43; number of deaths 6, and number of discharges 16, leaving 24 remaining in the Hospital. So we learn from the *Wilmington Star*.

A LAMP exploded Wednesday in Capt. Gilmer's store at Greensboro, and after setting fire to a quantity of goods, the flames were extinguished before much damage was done.

THE Greensboro Patriot says that Mr. Julius Gray presented the Fire Company and Hook and Ladder Company last week with \$200 as a recognition of the services rendered when his residence was burned. We take a pleasure in recording such acts of liberality.

JOHN B. HUSSEY, Esq., the talented young Editor of the Hickory Tavern Eagle, in the last issue of that paper, withdraws as a candidate for Reading Clerk of the House of Representatives, on account of business of an imperative nature. Mr. Hussey, in his card of withdrawal, tenders his grateful acknowledgments to many kind friends who had so generously tendered him their support and influence.

THE Durham Tobacco Plant learns of a horrible affair which occurred last Monday about nine miles South of that place. Tuck Hudson (col) and his wife left home last Monday, the former going to Raleigh and the latter to a neighbor near by. Their two children, one about five years old, and the other were left in the house. When the mother returned in the evening she found, instead of the home and little ones she had left, a heap of ashes and the charred bodies of the two children.

No idea can be given as to how the fire originated, it having not been discovered until the woman returned in the evening.

SPEAKING of cheese-making in Western North Carolina and East Tennessee, the Cincinnati Commercial says:

Among other evidences of progress at the South may be noticed the increasing interest manifested in cheese-making, particularly in Eastern Tennessee and Western North Carolina. There are four cheese factories in Western North Carolina, which will this year turn out about 100,000 pounds of cheese, no great things for the Northern dairy districts, but of much importance in that country. This cheese sells for fifteen cents a pound net, and that made at Elk Mountain has been pronounced equal in quality to the best Herkimer county product. Dairying and wool growing are well adapted to many portions of the Southern States, and appear to be growing in favor.

Caroline King, colored, living near Harrisonburg, Va., gave birth to two children April 3, 1871; on December 8, 1871, gave birth to two more, and on September 8, 1872, gave birth to three children, making seven children in a little over seventeen months. They were all boys.

Reasons why American Women are Delicate.

Another reason of the delicacy of our women is the far greater style affected by all classes in dress, and the wearing of corsets during early youth. Naturally, if one has attained a full and fine physical development, tight corsets, heavy skirts, close-fitting boots and weighty chignons cannot injure to the same extent as when these appliances of fashion are put upon the soft and yielding muscles of a young and growing girl. The noble ladies of England exercise many hours daily in the open air. They do not disdain to don heavy calfskin shoes and colored petticoats, in which to perform this duty. This of course would not alone make them as healthy as they are, were not their constitutions strengthened by a proper physical education before they are eighteen years of age, but it suffices to retain them in a good degree of health. Our fair Americans early in the day attire themselves in charming costumes, with white skirts, and then they are averse to soiling these by exercise, and the least dampness deters them from a promenade. American ladies think far more of dress and fashion, and spend more money and time on their toilets, than any woman in Europe, not even excepting the French from whom all our fashions come.—*Gallerie*.

PREPARATIONS FOR THE PRESS BANQUET TO STANLEY.—At a meeting Monday of the correspondents' committee for the dinner to Stanley, the Boston, New York, Philadelphia, Baltimore, Washington, Pittsburgh, Cincinnati, Louisville, St. Louis, Chicago and San Francisco press were individually represented, as well as the Associated, American and Southern Press Associations. A committee of invitation was appointed to wait upon Mr. Stanley on his arrival in New York, which is expected to be about the 18th of November. A committee of arrangements for the dinner was also appointed. The indications are that the Stanley dinner will be one of the most interesting affairs of the kind ever given.

LEAF FALL.

Fall, on the reddening ground;
Fall, as we fall away from life's serene tree,
Into an ocean of eternity—
Lost, swallowed up, and drowned.

Fall, though the sun is high,
And bright and blinding the sky,
Yet even with all my heart sends
Fall, still falling, alas! beloved friends
In our adversity.

Yet while they fall, still fall,
A bonnier light than all.
A bluer sheen than yon autumnal sky,
Shines on me, as I feel thy love-like eye
Dispel my fears, thrill.

We walk, those leaves above,
The soft voice like the dove,
Low murmuring; or as when, the woods
On more of Valentine, the wild bird's song
Whispers her mate of love.

Let them fall away,
Friends of the summer day—
False friends, who cannot bear affliction's test:
I know the love that liveth in thy breast
Will never fail away.

Never! Not even when
Beyond earth's narrow ken,
Like falling leaves fluttering in the autumn tide,
We two have passed, our love shall still abide,
Shall have grown perfect then.
